AI and the Future of Banking

SHAZAM

Artificial Intelligence is a topic almost every industry is trying to grapple with. The potential benefits and the uncomfortable challenges AI presents make it hard to think strategically about. In this session, we'll give you a framework to think about new technologies and innovations like AI and how you might use them in your bank. We'll talk about the ways AI is already in the marketplace, enhancing payments, authentication and the customer experience. We'll also look down the road at the potential risks AI and its uses pose for banking in the future.
